

Here's an improved version of the resume, optimized for ATS (Applicant Tracking Systems) and tailored to the job description:

****Chandni Gupta****

****Software Engineer (Backend/AI Focus)****

****Contact Information:****

* Phone: +91 8543078447

* Email: chandnigupta271002@gmail.com

* LinkedIn: [LinkedIn Profile]

* GitHub: [GitHub Profile]

* LeetCode: [LeetCode Profile]

****Summary:****

Highly motivated and experienced Software Engineer with expertise in building scalable web applications, AI-powered products, and backend systems using Python, Django, FastAPI, and LLM technologies. Proficient in designing and optimizing large-scale distributed systems, microservices architecture, and data engineering pipelines.

****Technical Skills:****

* Programming Languages: Python, JavaScript (ES6+), TypeScript, C++

* Frameworks: Django, FastAPI, React.js, Next.js, Node.js

* Databases: MySQL, PostgreSQL, MongoDB

* Cloud & DevOps: AWS (Cloud Practitioner), Jenkins, CI/CD, Git, GitHub

* Testing & Tools: JMeter, Jira, Log Analysis, Debugging, Grafana

* AI & ML: Generative AI, LLM APIs, LangChain, Prompt Engineering, RAG Pipelines, Agentic AI, AI Automation

* Operating Systems: Windows, Linux

****Experience:****

****Software Engineer Trainee, BusinessNext (Dec 2025 - Present)****

* Engineered root-cause analysis workflows for production CRM issues using structured log analysis and systematic debugging, accelerating defect resolution across the application lifecycle.

* Built and executed automated API performance and load-testing frameworks using JMeter, integrating Grafana and InfluxDB for real-time monitoring and bottleneck detection across microservices.

****SDE Intern, ACKO General Insurance Limited (Jul 2024 - Jun 2025)****

* Developed reusable UI components using React.js and Next.js, improving user experience and engagement.

* Led Next.js 14 migration, reducing build size by 35% and improving page load time by 40%.

* Designed and integrated REST APIs across microservices, improving API performance by 30%.

****Projects:****

* ****LLM-Powered AI Tutor with Generative AI Integration****: Engineered an AI-powered tutoring platform leveraging Mistral-7B via OpenRouter API, enabling real-time Q&A, quiz generation, and automated response synthesis using prompt engineering and LLM orchestration.

* ****Real-Time Chat Platform with AI Integration****: Developed a scalable real-time chat system using Socket.IO supporting 100+ concurrent users with sub-100ms latency.

****Education:****

* **Bachelor of Technology in Computer Science & Engineering**, GCET - Dr. A.P.J. Abdul Kalam Technical University (2021 - 2025)

+ CGPA: 8.62/10

****Certifications:****

* **Generative AI with Large Language Models**, Coursera (DeepLearning.AI) Certificate

* **Generative AI for Everyone**, Coursera (DeepLearning.AI) Certificate

* **AWS Cloud Practitioner Essentials**, Amazon Web Services

* **NPTEL - Database Management System (Elite) Certificate**

* **NPTEL - Programming in Modern C++ Certificate**

****Achievements:****

* Solved 480+ DSA problems on LeetCode — strong problem-solving and algorithmic thinking foundation.

* Best Idea Award — Product Launch Event, Galgotias Educational Institutions.

* Resolved production issues through code reviews, static analysis, and debugging, reducing defects by 18%.

* Enhanced Jenkins CI/CD pipelines, increasing deployment efficiency by 25%.
